Christian Freund, MD

Abstract

Jian W, Li L, Matsumoto K, Freund CT, Chen SY, Davis AR, Lerner SP. Combination of adenovirus mediated suicide gene therapy with the histone deacetylase inhibitors butyrate, phenylbutyrate and electroporation in bladder cancer in vitro and in vivo. 94th Annual Meeting American Association for Cancer Research, Washington, D.C. July 11-15, #6506. 2003

April 19, 2012
Abstract

Matsumoto K, Freund CT, Jian W, Yotnda P, Olmsted-Davis EA, Davis AR, Lerner SP. Effective suicide gene transfer strategy by using a chimeric adenovirus for bladder cancer. 98th Annual Meeting American Urological Association, Chicago, IL, April 25-May 1, 713 2003

Matsumoto K, Shariat SF, Casella R, Freund CT, Wheeler TM, Slawin KM, Lerner SP. Preoperative plasma soluble E-cadherin predicts lymph nodes metastases and disease progression in patients undergoing radical cystectomy. 98th Annual Meeting American Urological Association, Chicago, IL, April 25-May 1, #1514 2003

Abstract

Jian W, Li L, Matsumoto K, Freund CT, Chen SY, Davis A, Lerner SP. Combination of adenovirus mediated suicide gene therapy with the histone deacetylase inhibitors, butyrate, phenylbutyrate and electroporation in bladder cancer in vitro and in vivo. 4th Annual Retreat of Cell and Gene Therapy, Galveston, TX, November 21-22. 2002

Matsumoto K, Jian W, Freund CT, Davis AR, Yotnda P, Olmsted EA, Lerner SP. Suicide gene therapy for bladder cancer using a novel Ad5/F35 chimeric adenovirus vector. 11th Annual Oncology Research Seminar & Poster Session, The Methodist Hospital Cancer Committee & Baylor College of Medicine, Houston, TX, June 20. 2002
